

Craft and Technical Solutions

Delivering High Caliber Craft Professionals for Data Center Builds

Whether you are a hiring manager on a data center construction project looking for qualified, reliable staffing solutions, or a skilled trades professional searching for your next opportunity, Craft and Technical Solutions, LLC (CTS) is ready to support your goals.

Our leadership and recruiting teams bring more than 100 years of combined experience supporting large, schedule-driven construction environments. With a robust talent database, CTS can help meet the workforce demands of data centers nationwide, while connecting dependable craft professionals with challenging, rewarding work across every phase of construction.

Workforce Solutions

Temporary Skilled & Semi-Skilled Labor

Recruits and places workers for short-term assignments based on project needs.

Temp-to-Hire

Provides talent for immediate needs, with an option to convert to direct employment after agreed-upon number of hours.

Direct Hire

Sources qualified candidates across skilled trades, labor, and professional roles for full-time employment with your organization.

Hybrid Workforce Model

Supplies labor plus on-site lead personnel to help coordinate crews, bridging traditional and a more managed solution.
